REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

References Challa et al (US 7,088,955), Ogami (US 7,082,155), Jin (US 6,658,045), Dent (US 6,507,602), and Vihirala (US 2002/0045433) are cited because they are pertinent to the to the wireless receiver having velocity or Doppler estimation. However, none of the cited references teaches or suggests a wireless receiver comprising, in combination, the arrangements of a PreCE module having a first bandwidth filter, a Velocity Estimation module, and, especially, a PostCE module having a second bandwidth filter wherein the Post CE module compensates for a Doppler induced frequency spread according to the output of the VE module before the output of the PreCE module is processed by the PostCE module so that the second bandwidth filter is narrower than the first band-width filter as recited in claims 1 and 5 and corresponding method claim 7 and further limitations of their respective dependent claims 2-4, 6, 8 and 9.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
